

How to Force Restart an iPhone 5

Force restart an iPhone 5 that is frozen and not responding.

Written By: Dante Mazzanti

INTRODUCTION

Use this guide to force restart your iPhone 5 when it is frozen and not responding. This procedure clears out your iPhone's RAM, which becomes fragmented over time. Force restarts are very simple and require no tools.

Step 1 — How to Force Restart an iPhone 5

- Press and hold the Home button.
- While holding the Home button, press and hold the Sleep/Wake button.

Step 2

- Continue holding both buttons for about 10 seconds, until the Apple logo appears.
